Introducing the Virtual Team Global Business Model™ (VTGBM)

Create structure that helps engage employees and teams

The Virtual Team Global Business Model™ (VTGBM) is built on adult learning philosophy, empirical data and subject matter experts' viewpoints from diverse organizations. The VTGBM™ combines principles of adult learning for corporate training and companies looking to leverage employees from a distance.

Learn how to engage in the virtual space, obtain the Standard Operating Procedures that you need to ensure your teams are viable, and explore the importance of auditing your virtual teams following the VTGBM™.
